Hello All,

You should all have received an email notification inviting you to register in Quickr Place - Bristol Bay Watershed Assessment. This is EPA's software to centralizing information for a group. I have been told it is not the best but it is what we have. So this will be the place that we keep our records. If everyone would submit a request to join I will process them as quickly as possible. I will ask someone to participate in our next call to give us all a lesson in how to use this site.

I will be out of the office all next week. I'll be available by phone (907-690-1056) and will check email when I can find a fast enough connection.

Phil
